GREEN SUPPLY CHAIN MANAGEMENT POLICY

At Shriram Properties we are committed to practicing sustainable supply chain management to minimize our environmental impact, promote social responsibility, and ensure long-term sustainability.

This policy outlines our commitment to integrating sustainable practices into our supply chain operations, including sourcing, transportation, and supplier relationships.

- We will encourage suppliers to adhere to sustainable sourcing practices, including responsible resource extraction, reduction of waste, and protection of biodiversity.
- Only those suppliers who demonstrate a commitment to sustainability, such as those with recognized certifications or eco-labels will be given preference in procurement of materials and services .
- We will strive to reduce energy consumption and greenhouse gas emissions throughout our supply chain by promoting energy-efficient practices and encouraging the use of renewable energy sources.
- We will collaborate with suppliers to identify opportunities for energy-saving measures, such as optimizing transportation routes and utilizing efficient packaging materials.
- We will explore partnerships with suppliers that prioritize waste reduction and recycling initiatives to minimize the environmental impact associated with packaging and product disposal.
- We will engage with suppliers who uphold fair labor practices, including safe working conditions, fair wages, and the prohibition of child labor.
- We will foster open and transparent communication with our suppliers to encourage collaboration on sustainability initiatives and share best practices.
- We will support supplier development programs aimed at improving their sustainability practices, providing resources, and offering guidance on sustainability requirements.
- We will regularly review and assess our supply chain practices, identifying opportunities for improvement and strive for continuous sustainability enhancements.

This Green Supply Chain Management Policy will serve as a guiding framework for our procurement processes, emphasizing environmental stewardship, social responsibility, and the pursuit of a sustainable future.
